DETAILED ACTION

Response to Amendment

1. The amendment filed on 04/15/2002 amended claims 1, 15 and 29 which amended claims have been entered.

Drawings

2. The corrected or substitute drawings for figure 18 were received on 04/15/2002. These drawings are acceptable.

Election/Restrictions

3. This application contains claims 12-14, 26-28 and 30-40 drawn to an invention nonelected with traverse in Paper No. 8, mail room receipt date of 10/15/2001. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-11, 15-25 and 29 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Independent claim 1 was amended by adding:

Art Unit: 2672

wherein said output image is comprised of more than one object, each object having a rendering attribute, and wherein said rendering means renders the output image on the basis of the rendering attributes of the objects comprising the output image.

Independent claims 15 and 19 were amended by adding:

wherein said output image is comprised of more than one object, each object having a rendering attribute, and wherein said rendering step renders the output image on the basis of the rendering attributes of the objects comprising the output image.

Independent claims 1, 15 and 29 prior to the amendment only claimed output images and output image. Prior to this amendment the independent claims were directed to the invention illustrated in figures 8-10. The limitations added to the independent claims are from the invention illustrated in figures 2-5. The originally filed specification did not describe the combination now claimed.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 2672

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
